Get comfortable with screen time

Extended screen time is no longer limited to a few. Regardless of your age or occupation, chances are you're looking at screens and digital devices throughout your day.

58% of children have their own tablet by age 4[1]

On average, employees are getting 97 hours of screen time a week[2]

Older Americans spend more than 50% of ther leisure time on screens[3]

A lens for everyday life

Sequel™

Screen time shouldn't lead to downtime

Your eyes weren't meant to spend long hours looking at screens or switching between phones, tablets, and other digital devices.

While the demands we put on our eyes have changed dramatically, standard lenses haven't.

Sequel™ lenses are here to change that.

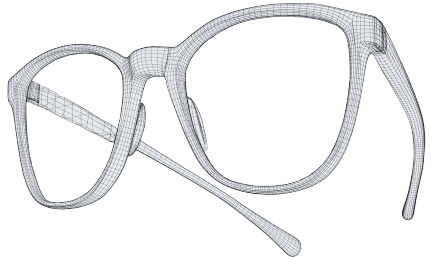

Active Life, Proactive Lenses

Sequel lenses are designed to help you conquer the daily visual demands of today's world.

Sequel's **Convergence Boost™** lens technology delivers unparalleled visual comfort and clarity on and off screens.

A lens for everyone

Convergence Boost™

Convergence Boost™ technology delivers improved comfort and vision by allowing your eyes to be in their most natural position.

No-glare Coating

No-glare coating reduces reflections for clearer vision

Power Boost

Power boost technology adds extra magnification for easier close-up tasks.

Blue Light Filter

Add blue light filter technology to your Sequel lenses for screen protection.

No matter your age, prescription or lifestyle, there's a Sequel lens that's right for you.

Ask your eye care professional which Sequel lens is best for you.
